OREGON WATER & WASTEWATER FUNDING AND RESOURCE GUIDE

Compiled by:
RCAC
www.rcac.org
Background and Purpose

Rural Community Assistance Corporation (RCAC), a private non-profit organization serving 13 states in the West, helps rural communities achieve their vision and goals through training, technical assistance, and access to resources. RCAC works with funding and regulatory agencies and partners to address utility compliance issues for lower income rural communities.

The purpose of the RCAC Oregon Water Wastewater Funding and Resource Guide is to provide an easy to use document which identifies water and wastewater funding programs, agencies, and organizational resources. RCAC hopes that this guide will be used as a tool to help you move forward with water and wastewater infrastructure projects in your community.

Scope

The Guide provides information on primary agency funding programs which support planning, predevelopment, and construction of drinking water and wastewater infrastructure projects. It also includes information on resources available to assist communities with completing drinking water and wastewater projects, addressing regulatory compliance, drinking water protection, improving water quality and local public health. Additional resources may be available. Please contact RCAC to suggest a resource to include in this guide.

Contents

- Agencies serving water/wastewater needs for small Oregon communities
- Funding programs for water and wastewater projects

Key Project Stages

- Planning
- Predevelopment
- Engineering and Design
- Construction

This publication was made possible by Grant Number 90EF0069-04-00 from Health and Human Services and Rural Community Development Activities Program. The information was compiled in partnership with agencies and organizations by Rural Community Assistance Corporation (RCAC). RCAC is the Western regional affiliate of the Rural Community Assistance Partnership, Inc. (RCAP).
