Denise England
Tulare County:

RE: The Northern Tulare County Regional Water Alliance, Working Group Meetings

Ms. England,

The Northern Tulare County Regional Water Alliance Working Group Members consider your organization to be a vital stakeholder in this regional process, and as such, request that you (or if not possible, another representative from Tulare County) attend and actively participate in all of our future meetings as we decide the organizational structure for the entity who may have the responsibility to own, operate, and maintain the proposed surface water treatment facilities as well as the responsibility to enter into debt, seek funding and meet funding conditions.

The involvement of Tulare County is essential to the development of a drinking water governance structure in our region. Tulare County represents the water systems for both Yettem and Seville and plays a very big role in this process.

Together, we hope to strengthen our partnership in finding a sustainable solution to benefit every family in our region. The meetings are held at 9 am at the Cutler-Orosi Joint Unified School District Offices. Below are the scheduled Working Group Meeting dates through May, 2016:

March 5
April 2
April 30
May 21

We will send you a reminder postcard via e-mail and mail.

Please also visit our website for more information at
