

Paskenta CSD – Consultant Inquiries Generator Program

1. RFP Correction: Consultant Selection should be **05/03/2022**
2. Physical address for Paskenta CSD is: **13047 Round valley Road, Paskenta, CA 96074**
3. Is an SOQ required? **YES**
4. Is there an anticipated general location(s) where the generator(s) is to be installed? Knowing the desired approximate location(s) will assist with understanding permit requirements. **The generator is most likely to be located near the pump house or location housing the well controls. Firm should recommend best location on the associated property.**
5. Is there a desired design and project implementation schedule? **The timeline will be contingent on many approvals from the SAFER Funding agents (SWRCB) and availability of equipment. In the best scenario, the utility would have backup power installed by the next fire season.**
